

ANHO-EX er en mer fleksibel versjon av ANHO og testes regelmessig for å sikre korrekt motstandsverdi.

Ledende polyetylen (PE) og elastomer spiralslange, med forsterkning på den ytre spiralen som fungerer som slitebeskyttelse.

Farge: sort/rød.

Art.nr	Ø innv.	L
ANHO-038-20-EX	38	20
ANHO-050-30-EX	50	30

Conductive POLYETHYLENE (PE) and ELASTOMER spiral hose, with reinforcement on the external spiral with antiabrasive function, for extraction of air and dust, where absence of electrostatic accumulation is required. ANHO EX is more flexible version of ANHO, and it is tested regularly to ensure the resistance.

Smooth surfaces

Flexibility

Flexibility coefficient (CEI EN 60312):
ø38=0.150; ø50=0.110

Abrasion Resistance

Temperature range

-20 °C +60 °C
-4 °F +140 °F

Crushing resistance

Conductive

According to CEI EN 61340-2-3, concentric electrodes method; surface resistance $\leq 10^4$ Ohm (tested after 24h)

Electrical resistance

According to ISO 8031: $\leq 100\text{kOHM}$

Chemical resistance
