

ATEX Super-M

Stainless Steel Extraction-Arm d. 110/160mm/1.5m 2m 3m 4m.
Made of Acid Proof Mirror Polished Stainless Steel.

ATEX conformal execution
for Ex-Aera 1/21 and 2/22
ATEX: EX II 2D/G
PVC-hose, electrically conductive 10⁴

Pharmaceutical, Food process and Technical chemical Industry
Extraction-Arm for explosive gas in zone 1 and 2 as well as dust for zone 21 and 22.

The Hood is the Secret behind the efficiency. The hoods are developed in cooperation with one of the biggest companies in the chemical industry. The straight hood is for dust. The 67° hood is for smoke and the 150° hood is for gases. The 150° hood develops a "tornado," effect, which enhances its capacity to extract gases.

Perfectly balanced. External hydraulically suspended parallelogram arms make the hood incredibly easy to move and 100 % stable in all positions.

ATEX Super-M incl. wall bracket, parallelogram arm, hood and handle of acidproof mirror polished stainless steel. 10 ⁴ Ohm electrically conductive PVC-Hose.	 Straight	 150°
